Civic Engagement at its Best!

We are encouraging our next generation of civic engagement. These future leaders were part of nearly 100 young people who visited City Hall last Friday to learn more about local government, municipal services, council meetings, democracy and voting, and how to get and stay involved with their community. We are always excited to greet these eager, talented, promising young minds!

City Offices Closed in Honor of Memorial Day

In honor of Memorial Day, City offices will be closed on Monday, May 30. We wish everyone a safe holiday weekend!

Eau Claire = Clear Water

Eau Claire, French for "clear water," is living up to its name. The most recent water quality report showed that the City's water supply was within acceptable ranges for all substances tested.

Residents can read the 2015 Water Quality Report to see test results, as well as other health and education information, by visiting www.eauclairewi.gov/ccr.

Fairfax Pool Opens May 28!

Ticks are out and about! Do you know how to safely remove one?

If you find a tick attached to your skin, there's no need to panic. There are several tick removal devices on the market, but a plain set of fine-tipped tweezers will remove a tick quite effectively. Check out the [Centers for Disease Control and Prevention](#) site for information on avoiding ticks, removing a tick, symptoms of tick-borne illness, etc.

New Weather Siren on Jeffers Road

We have a new weather siren on Jeffers Road, which is expected to be functioning by June 6. The City now has 23 weather sirens.

The siren system is intended to warn people **outside** to seek shelter, and is not intended to act as a warning mechanism for people indoors.

During severe weather, those inside should monitor their NOAA weather radio, AM/FM radio, television or other media for weather information.

Parks, Recreation & Forestry Department discourages feeding ducks and geese at City Parks.

Many people feed the ducks and geese at the City parks without realizing the damage it may be causing, such as poor nutrition in the animals, water pollution, and overcrowding. It can also lead to an increase in disease, delayed migration, concentrations at unnatural sites, devaluation of the species, and more.

We are asking the public to refrain from feeding the waterfowl at the Eau Claire City parks. We hope that everyone can enjoy the great parks that Eau Claire has to offer, including the animals!
