Short Street Reconstruction

Property owners and interested citizens are invited to attend an open house for the reconstruction of Short Street, from STH 37 to the Chippewa River. This will allow the opportunity to provide input and comments to staff of the City of Eau Claire Engineering Division as they begin design for the reconstruction of the street. City Engineering staff will be on hand to hear suggestions, comments, and concerns from the public.

There will be no formal presentation at this open house. The open house will be an opportunity for property owners and interested citizens to talk to staff one on one to ask questions and provide input.

Construction of the project is scheduled for 2017.
