FOR IMMEDIATE RELEASE

LET YOUR VOICE BE HEARD

Eau Claire County Community Health Improvement Meeting

EAU CLAIRE, Wis. – Eau Claire Healthy Communities Council needs your voice at the table to share your perspectives on how to prevent or manage Mental Health, Alcohol and Other Drug Misuse, and Chronic Disease. Why are these problems in Eau Claire County? What do we want to change?

Community members are invited to attend this meeting from 6 to 8:30 p.m. Thursday, April 4th, at the RCU Corporate Building, 200 River Front Terrace, Eau Claire River Room, first floor.

“This is a great opportunity for community members to connect and actively participate in bettering the health of our county,” says Lieske Giese, Eau Claire City-County Health Department director. “The first Community Health Improvement meeting on March 14th provided enormous energy and focus for health improvement efforts in the county. This is the next step to action.”

Eau Claire County Healthy Communities Council is providing guidance and leadership to this planning and implementation effort. The Council has been vital in bringing many successful programs to the county through collaborative action.

Register online for the meeting at: tinyurl.com/ec-community-health. This meeting is sponsored by Eau Claire Healthy Communities Council, Mayo Clinic Health System, Sacred Heart Hospital and the Eau Claire City-County Health Department.

For more information, contact Gina Nielsen, Health Educator at 715 839-4718.
