## News Media Report

### **Narrative:**

Eau Claire Fire/Rescue responded of a reported structure fire on 2<sup>nd</sup> Ave. On arrival there was smoke coming from the roof line and a reported fire in a back room of the two story duplex. The duplex was vacant at the time of the fire. Crews had to use saws to gain entry to the building. The fire extended into the walls and traveled to the attic. The fire broke through the roof on the rear of the house and a ladder truck was used to assist in that extinguishment. Crews were pulled out for safety reason and the fire was brought under control from the outside. Once the fire was under control crews re-ented to make final extinguishment. There were several hot spots in hard to reach areas. Parts of the home had saw dust for insulation.

The fire remains under investigation and investigators will return in the morning. Fire departments from Altoona and Township staffed their station to cover other calls in the city. There were no injuries as a result of the fire. The last crew cleared the scene at 01:30 this morning.

*Officer: Duane Grunst, Battalion Chief  
Eau Claire Fire Department*
