

LAWN CARE

Property owners are responsible for all watering and maintenance of restored lawn areas.

Property owners are reminded to start watering the lawn seed shortly after it has been placed. Adequate water is essential for establishment of a root system and a lush green yard.

PROJECT COMPLETION

Street construction causes a significant inconvenience to you, as a property owner, and there will be times during construction that your driveway will be inaccessible. With that in mind we will make all efforts to complete the project by the anticipated completion date, with lawn seeding to be completed soon after.

Completion of the project is based upon weather conditions and the delivery of construction materials through the duration of the project.

Anticipated Completion Date: July 22, 2020.

For additional questions or information about this project, please call the Engineering Department at 715-839-4934. We look forward to working with you to improve the city streets and utility systems.

City Wide Milling & Asphalt Paving Project 2020-22

PROJECT OVERVIEW

Current date: July 1, 2020

Construction on: Third Street,
Truax Boulevard to Long Street

Tentative start date: Monday, July 6, 2020

Proposed Work: Construction of Third Street will consist of; repairing concrete curb and gutter, repairing concrete sidewalk, repairing concrete driveway approaches, milling existing asphalt surface, paving new asphalt surface, boulevard restoration, and pavement marking.

Third Street will be closed to through traffic during construction. A signed detour will be in place utilizing Garden Street and Truax Boulevard.

Contractor: Haas Sons, Inc., of Thorp, WI

Project Engineer: Tim Pluth

The contractor for this project will have various sub-contractors working for them throughout project completion.

This project will be supervised by the City Engineering Department; there will be City inspectors on the job each day during construction to answer any questions in regards to the project.

RIGHT-OF-WAY

Please note that anything from the boulevard to the City Right-of-Way (ROW) Line, which does vary, will be affected by the repair process. During construction there is the possibility for your private property area to be affected by the repair process. Any private property area affected by construction will be restored.

If you have an irrigation system in City Right-of-Way, please be sure to locate it, and remove it before the start of construction to avoid damage.

Any landscaping that is in the City Right-of-Way should be removed prior to the start of construction, as well, to avoid any damage.

The contractor and the City cannot guarantee the condition of these items once construction begins.

NATURAL GAS

If you are considering conversion to Xcel Energy natural gas, please contact Xcel Energy right away. After the street has been resurfaced, permits to excavate in the street are prohibited for five (5) years, except in the case of an emergency.
