

# LAWN CARE

Property owners are responsible for all watering and maintenance of restored lawn areas.

Property owners are reminded to start watering the lawn seed shortly after it has been placed. Adequate water is essential for establishment of a root system and a lush green yard.

## PROJECT COMPLETION

Completion of the project is based upon weather conditions and the delivery of construction materials through the duration of the project.

**Anticipated Completion Date: Tuesday, August 18, 2020.**

For additional questions or information about this project, please call the Engineering Department at 715-839-4934. Thank you for your patience as we make these repairs.

### City Wide Milling & Asphalt Paving Project 2020-22

# PROJECT OVERVIEW

**Current date:** August 6, 2020

**Construction on:** Golf Road & Rudolph Road  
Round-a-bout

**Tentative start date:** Monday, August 10, 2020

**Proposed Work:** Removing and replacing concrete curb and gutter and medians that have deteriorated.

Golf Road and Rudolph Road will be closed at this intersection. A signed detour will be in place during construction.

## DETOUR INFORMATION

**Westbound Golf Road:** traffic will be detoured north on Fairfax Street to Mitscher Avenue; then west on Mitscher Avenue to Rudolph Road; then north on Rudolph Road to E. Hamilton Avenue; then west on E. Hamilton Avenue to State Street; then south on State Street to Lowes Creek Road.

**Eastbound Golf Road:** traffic will be detoured beginning on Lowes Creek Road at State Street; then north on State Street to E. Hamilton Avenue; then east on E. Hamilton Avenue to Rudolph Road; then south on Rudolph Road to Mitscher Avenue; then east on Mitscher Avenue to Fairfax Street; then south on Fairfax Street to Golf Road.

The detour will include a “4-way” stop sign at the intersection of Rudolph Road and Mitscher Avenue.

## RIGHT-OF-WAY

If you have an irrigation system in City Right-of-Way, please be sure to locate it, and remove it before the start of construction to avoid damage.

Any landscaping that is in the City Right-of-Way should be removed prior to the start of construction, as well, to avoid any damage.

The contractor and the City cannot guarantee the condition of these items once construction begins.
