

Rudolph Road/Golf Road Roundabout Repair Project to Begin 8/10

Repairs are scheduled to begin Monday, August 10 at the Rudolph Road and Golf Road roundabout. The project will consist of removing and replacing concrete curb and gutter, and repairing concrete medians. The contractors for this project are Haas Sons, Inc. of Thorp, Wisconsin, and Harmon Concrete & Construction, Inc. of Eau Claire, Wisconsin.

The project will require closing Golf Road and Rudolph Road to traffic during construction; a detour route will be signed as follows:

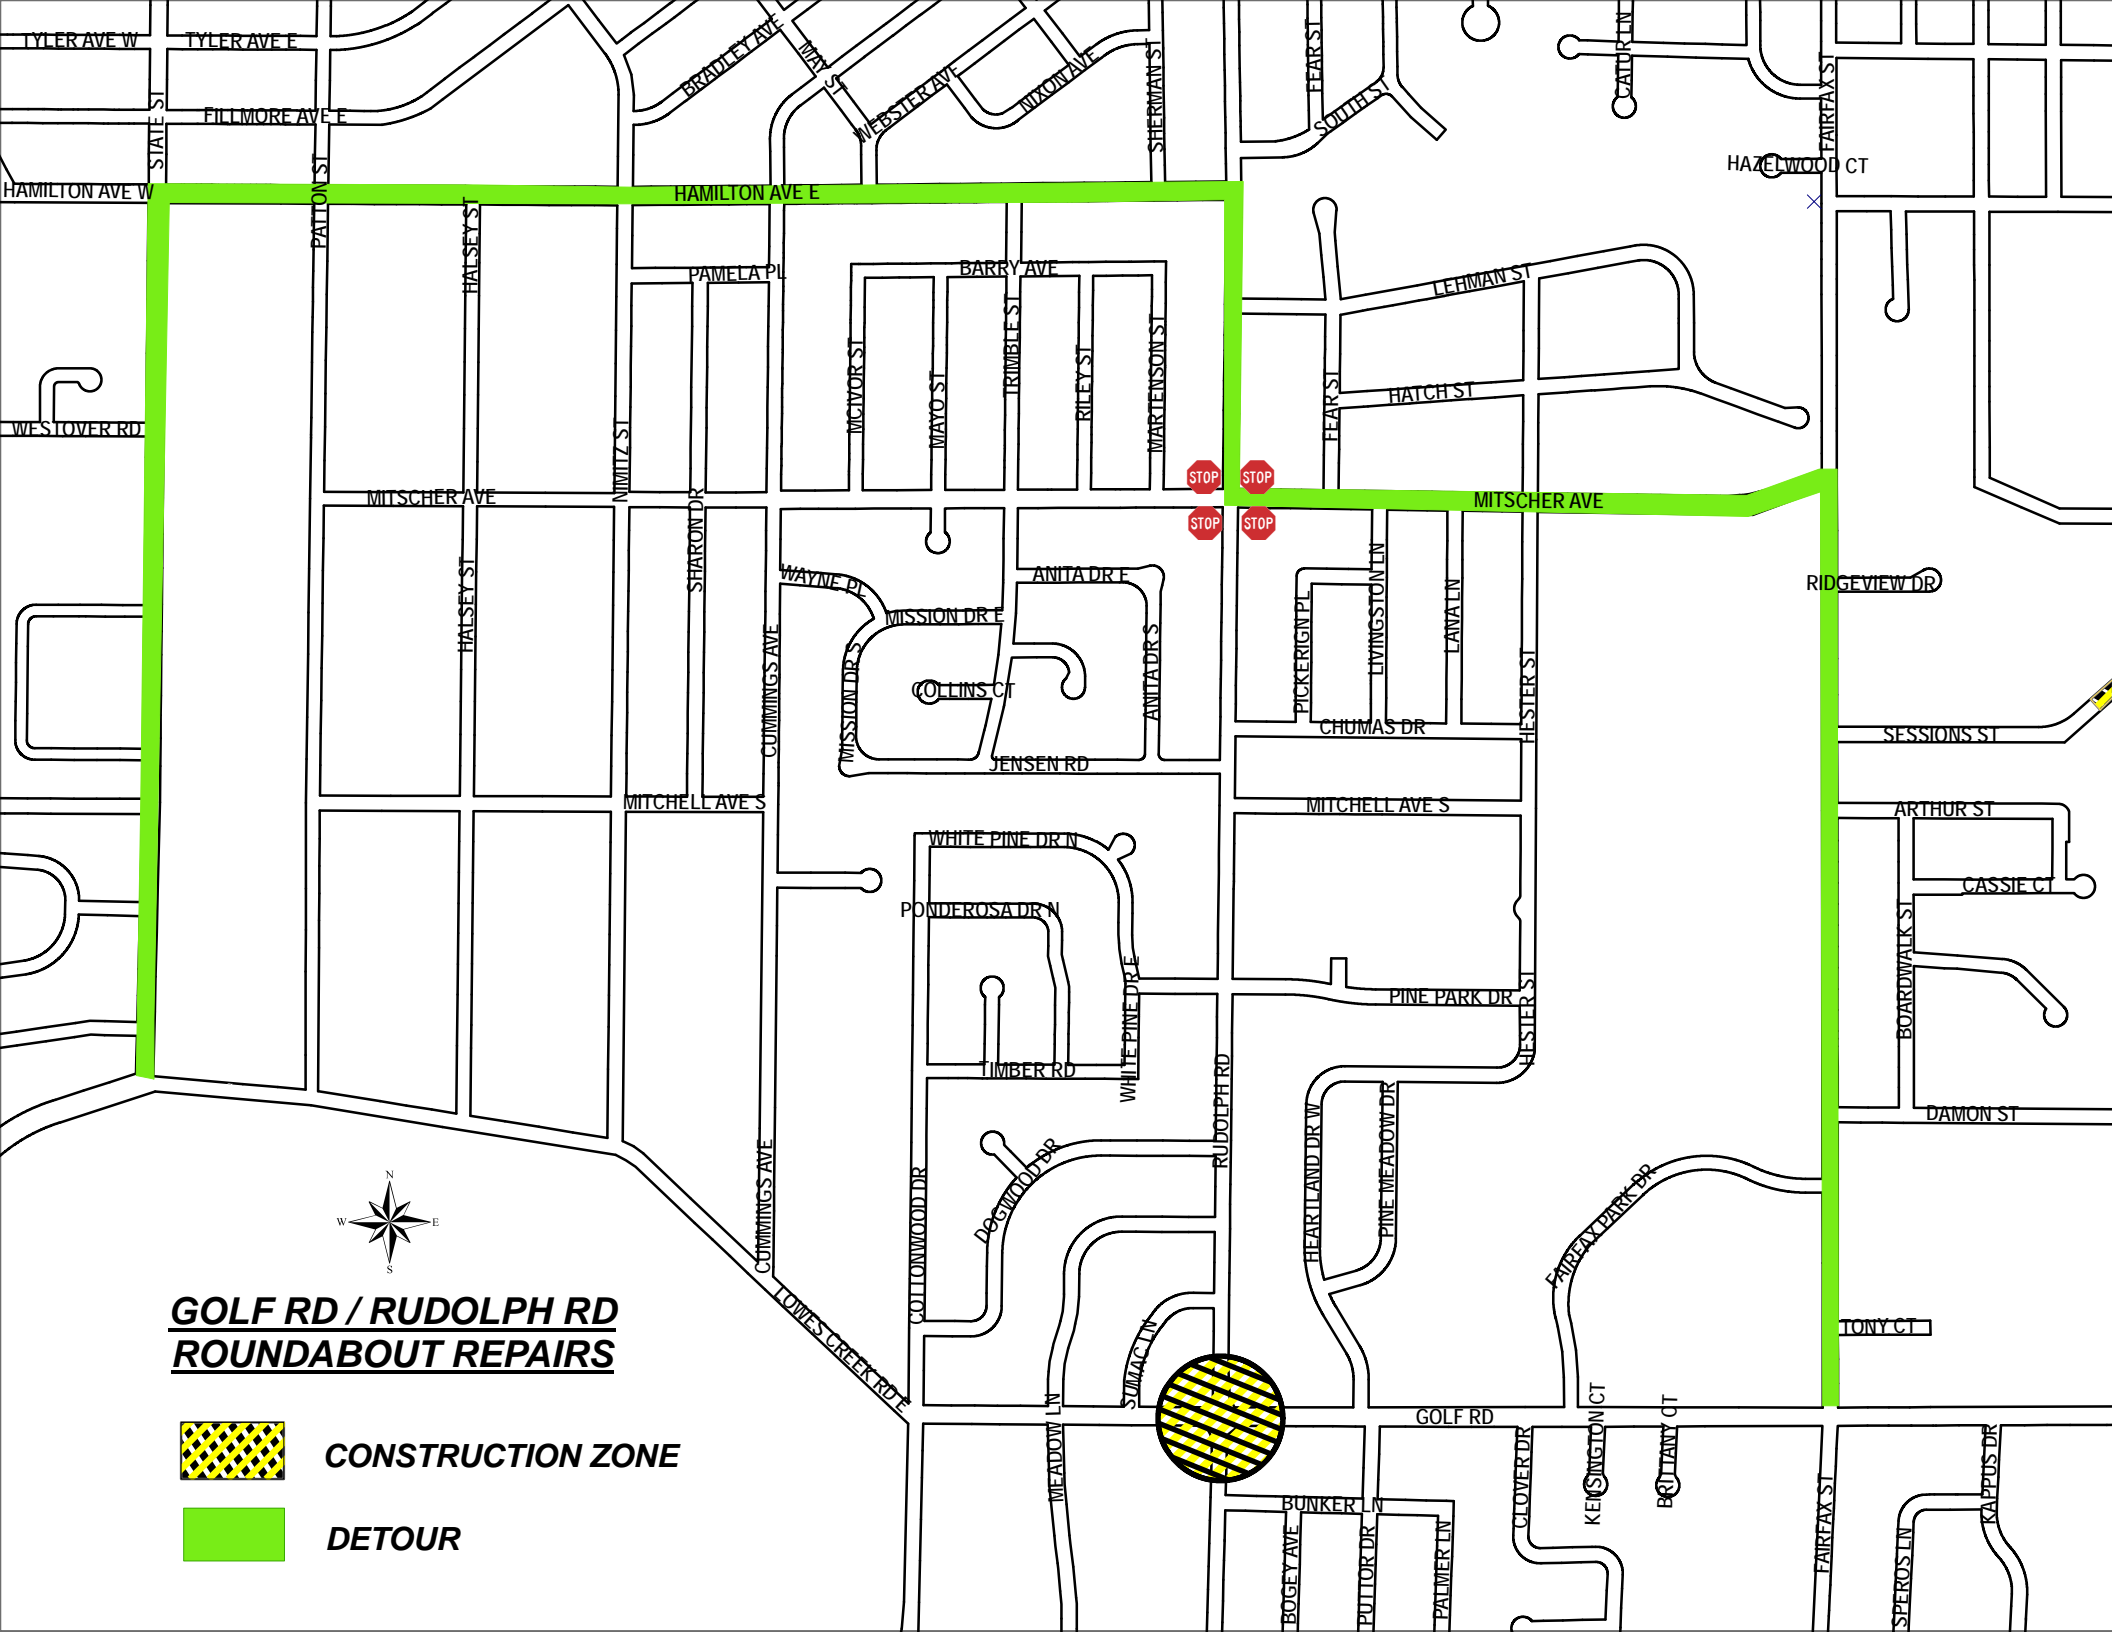

- Westbound Golf Road traffic will be detoured north on Fairfax Street to Mitscher Avenue; then west on Mitscher Avenue to Rudolph Road; then north on Rudolph Road to E. Hamilton Avenue; then west on E. Hamilton Avenue to State Street; then south on State Street to Lowes Creek Road.
- Eastbound Golf Road traffic will be detoured beginning on Lowes Creek Road at State Street; then north on State Street to E. Hamilton Avenue; then east on E. Hamilton Avenue to Rudolph Road; then south on Rudolph Road to Mitscher Avenue; then east on Mitscher Avenue to Fairfax Street; then south on Fairfax Street to Golf Road.

The detour will include a “4-way” stop sign at the intersection of Rudolph Road and Mitscher Avenue. Motorists can expect delays and congestion at this intersection. Drivers are encouraged to take alternate routes during the construction.

Anticipated completion date of the project with the road being open to traffic is August 18, 2020.

Further information is by calling the Engineering Department at 715-839-4934.
