Fund Spotlight

Solar on Eau Claire Schools Fund

This fund supports the installation of solar panels on Eau Claire's North and Memorial High Schools.

Once installed, the solar panels will significantly reduce the schools' carbon footprint. They will also save the Eau Claire Area School District about \$20,000 a year in energy costs.

Half of the required panels have already been donated, and the other half will be donated if between \$250,000 and \$275,000 can be raised to cover installation, maintenance, and other costs.

ABOUT VER

Welcome to VER! We are so excited about the opportunity to partner with you to create some gorgeous hair!

At VER, we're proud to create a supportive, loving, inclusive environment focused on kindness, community, and team work. We are sincere in celebrating individuality and the unique qualities which make us all human.

When not working behind the chair, you can find our team volunteering in their local community, spreading love and support to Eau Claire and the Chippewa Valley's local businesses, and loving life with their friends, family, and beloved pets who are like their children.

SHOW YOU CARE

Aveda reaches cumulative fundraising of nearly \$65 million**** for hundreds of local and global environmental organizations, with more than \$60 million directed to protecting and providing clean water.

Aveda partners with charity: water, one of the leading nonprofit organizations dedicated to providing access to safe drinking water, sanitation and hygiene (WASH) to people in developing countries. Through the partnership, Aveda provides clean water to underserved communities in India, Nepal, Madagascar and Ethiopia, key sourcing countries for our brand.

JONAH Environmental Task Force

Waste Reduction, Composting or Recycling

- Awareness on reducing plastics/waste

How do we reduce the impacts of plastics in Eau Claire?

The Milwaukee community has built a coalition of Government, business, and volunteer organizations to address plastics and help create sustainable practices.

Join us to hear from members of this coalition on how they are taking multiple steps to support businesses as they adopt environmentally friendly practices.

Thursday, April 15.
7:00 pm Zoom link:
<https://us02web.zoom.us/j/88228567419>

Eau Claire's Jonah Group is sponsoring this event. Volunteer members of the Jonah Environmental Task Force are sponsoring this event. New community volunteers and members are welcome!

Simple Steps by Community Members

How can patrons communicate with community restaurants and businesses to reduce plastic waste?

No Boundaries Tiny Homes Green Products or Practices

- Upcycling materials for tiny homes

Home Sweet (Tiny) Home **VolumeOne**

new housing project combines passion for preservation, sustainability, and affordable housing

Jared Choate

Thursday Jul. 22nd, 2021

TINY HOME. BIG HEART. No Boundaries Tiny Homes – founded by Graham Barnes and Chad Dalhoo – recently made waves with the unveiling of their first tiny-home effort, The St. Pat's Tiny Home.

REPURPOSED CLASSROOM SCIENCE TABLE WITH CUSTOM EPOXY.

DECONSTRUCTION BEFORE DEMOLITION

When most standing structures are no longer usable and must be torn down or demolished, many wrecking companies haul all materials to a landfill, regardless of their condition. Some studies have shown that up to 85% of these materials could be repurposed or upcycled for use in future building structures. Pardon the pun but *what a waste*.

When contracted for a building demolition, **No Boundaries Tiny Homes** utilizes

SALVAGE WITHOUT SACRIFICE

Our **tiny homes** are built using quality repurposed building materials,
