

## Lifeguard Staffing Plan

**Please complete the following:**

1. Surface area of pool, pools, or square footage of water attraction complex: \_\_\_\_\_  
\_\_\_\_\_

2. Maximum patron load: \_\_\_\_\_ Average patron load: \_\_\_\_\_

3. Daily hours of operation: \_\_\_\_\_

4. As required by HFS 172.23, indicate the number of lifeguards provided when:

a) All areas of the pool or pools are open: \_\_\_\_\_.

Describe the placement of the lifeguards at the pool or pools: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

b) A portion of the pool is closed to reduce the number of lifeguards required:

When \_\_\_ % of the pool is closed, the number of lifeguards provided is: \_\_\_\_\_

When \_\_\_ % of the pool is closed, the number of lifeguards provided is: \_\_\_\_\_

Describe the placement of the lifeguards at the pool or pools in these instances: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Describe your method of calling in additional lifeguards when high patron numbers require that temporarily closed portions of your pool be reopened: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

5. Describe the method of communication when two or more attendants are required for a water attraction, pool slide or waterslide: \_\_\_\_\_  
\_\_\_\_\_

6. Attach a diagram of your facility that shows the location of each attendant, lifeguard, lifeguard chairs, first aid station(s) and any visual obstructions. Also indicate where lifeguards are stationed when portions of the pool are closed and the number of lifeguards is reduced (use color coding or numbering).
